

Filter Flexo

- **Easy To Engineer To Unique Specifications**
- **Economical, Long Lasting Filtration Solutions**
- **Wide Range Of Available Materials**
- **Can Be Fabricated Into Custom Configurations**

A wide range of industrial, commercial and recreational filtration needs can be met with custom braided sleeving filtration elements.

Engineered Particle Filtration For Water and Chemicals

One of the most popular applications for expandable braided sleeving is the filtration of small particles in flowing liquids.

Our standard Filter Flexo (FF) is just the beginning. By altering the mechanical specifications of the braided sleeving, along with the ability to incorporate any available combination of advanced polymer monofilaments, we can engineer a filtration product to satisfy virtually any specific application. In addition, our fabrication capabilities allow us to form the braided material into custom configurations designed to fit into existing filtration systems.

From pools and aquariums to pressurized solvents, braided sleeving can be engineered to meet commercial high volume as well as advanced technology filtration requirements.

Most filtration products are custom engineered for specific applications. Contact our Product Development Department with your unique requirements.

Nominal Size	Part #	Expansion Range		Standard Spool Put-Ups		Available Colors	Lbs/100'
		Min.	Max.	Bulk Spool	Mini Spool		
1/8"	FFN0.13	1/16"	1/2"	1,000'	225'	Clear	.18
1/4"	FFN0.25	3/16"	3/8"	1,000'	200'	Clear	.33
5/16"	FFN0.31	5/16"	7/16"	500'	150'	Clear	.43
3/8"	FFN0.38	5/16"	5/8"	500'	125'	Clear	.53
1/2"	FFN0.50	1/2"	3/4"	500'	100'	Clear	.82
